[CAUTION] This email comes from a sender outside your organization.

Good Afternoon!

Nate,

I have also CC; the home owner Harvey Brewster as he requested a copy of this also. There is a potential that after the home in built that a septic may fit in the area on the east of the property depending on where the house Is located. There is a strong possibility he is aware that a lagoon will be needed for the home.
To prevent the chance of the homes location to prevent the septic from being possible I am waiting to conduct the percolation test until after the foundation is complete. I have attached the A sheet as well as the GIS map that notates the soil descriptions. If there is anything else you need from me at this time, please feel free to call me directly.
